## **Book draws on the leading source of technical information**

In addition to using Access, I edit Smart Access, the leading newsletter for in-depth technical information on Microsoft Access. One of the benefits of being the editor of the Smart Access newsletter is that I get access to the best technical information on Access. So, even though I've been using Access since version 1.0, I didn't write this book all by myself. The chapters on Replication and Security, for instance, were written by Mary Chipman who is one of the acknowledged gurus in these areas. We all worked hard on this book and I hope you find it useful. I know I would have appreciated it when I took my MCSD exam.
